

16.5" Supercardioid Shotgun Microphone

FR-301

Designed for video production and broadcast applications, the MXL FR-301 phantom powered shotgun microphone offers clear, accurate recordings and exceptional side rejection. Measuring over 16 inches, the FR-301's narrow pattern allows you to single out your subject when there is unwanted background noise the built-in camera mic can't handle. This mic can also be used for general video recordings like weddings as well as for Foley work and interviews.

FEATURES

- > Includes microphone clip and windscreen
- > FET Preamp
