

# FR-310

The MXL FR-310 video mic delivers sound that's as focused as the video. Mount it onto your camcorder or DSLR camera, and you'll cut to tighter, cleaner sound recordings. The FR-310 shuts out sound from the sides and back, with a pickup pattern that targets sound in front of the camera. Three gain settings pull in the right amount of sound in close-up or long shot situations, while a bass roll-off switch leaves low-frequency noise on the cutting-room floor. The integrated windscreen helps block wind noise, which aids in keeping your sound in the picture.

## FEATURES

- > Three-position gain switch
- > Bass roll-off (high-pass filter)
- > Standard hot shoe mount
- > Up to 500 hours per AAA battery
- > Integrated foam windscreen

## ACCESSORIES

Carrying Case

## SPECIFICATIONS
