MXL Adds Wireless Microphone Technology To Its Field Recording Line

MXL Microphones' new FR-500WK Professional Portable Wireless Audio System offers convenient features and impressive sound quality to professional and prosumer videographers.

El Segundo, CA (February 7, 2013) – MXL Microphones, a division of Marshall Electronics, announced its release of the FR-500WK Professional Portable Wireless Audio System. The kit is comprised of the FR-500WT Transmitter and the FR-500WR Receiver, plus accessories geared toward DSLR users. The MXL FR-500WK lets videographers add audio to video without the need for cables.

“MXL is expanding the wireless product line to include the growing DSLR video market. There is a big demand for audio accessories in the audio for video market. MXL is dedicated to meeting that need with a full line of microphones,” said MXL Director of Sales and Marketing Perry Goldstein.

The FR-500WK Wireless Audio System is designed for interviews and field reporting. Features:

- Ultra High Frequency from 566.25 - 589.75
- 64 channel selections. (4 groups x 16 channels)
- Easy access/change group and channel dials
- LED lights indicate different channel groups.
- Long transmission range: up to 280m in line of sight
- Long battery life (2x AA): up to 10 hrs
- Wide frequency response from 40Hz to 18KHz

The FR-500WT Transmitter has a built-in microphone, 1/8" (3.5 mm) mic jack, and line in. A discreet omni lavalier microphone is included.

The FR-500WR Receiver has a built-in speaker, 1/8" (3.5 mm) headphone jack, and line out. A hot shoe adapter and a 1/8" to 1/8" cable are included to mount the receiver on top of a DSLR camera. A 1/8" to XLR male cable and 1/4" adapter are included to connect the receiver to mixers and other pro audio gear. Additionally, the receiver can be used with headphones and a recording device.

Multiple receivers can be tuned into the same channel as one transmitter to enable group listening, a feature that can be used for tours. (Receivers and transmitter must be tuned to the same channel and group.)

Where Great Recordings Begin

Both the receiver and transmitter work with some mobile devices using a special 1/8" accessory cable.

The receiver and transmitter are sold together in the FR-500WK Kit. The kit is available now at an MSRP of \$399.95.
