**Please Welcome to the Stage the MXL LSM-3 Dynamic Microphone**

*MXL's new LSM-3 delivers rich sound onstage without background noise.*

El Segundo, CA (January 1, 2013) – MXL Microphones expands its line of live dynamic microphones with the release of the new LSM-3 Handheld Dynamic Microphone at the 2014 NAMM Show. The LSM-3 is a dependable, rugged work horse microphone designed to deliver clean audio in any live setting.

The LSM-3 has a cardioid polar pattern to pick up sound in front of it, while eliminating sounds from the sides and back. It offers excellent feedback rejection and very low handling noise. The LSM-3 is engineered to pick up the intended subject in vivid detail while rejecting unwanted noise from the surrounding environment.

The LSM-3 is perfect for vocalists who like to move on stage. The dynamic capsule is enclosed in an all metal body for much-needed durability on tour. With no on-off switch, the LSM-3 cannot be accidentally turned off during a performance or presentation.

Specifications:  
Frequency Response: 40Hz – 14kHz  
Polar Pattern: Cardioid  
Impedance: 600 ohms  
Sensitivity: -54dB re 1 V/Pa  
Size: 7.09 in. x 1.93 in.  
Weight: 0.61 lbs  
Color: Black

The MXL LSM-3 will be available in the first quarter of 2014. For more information on MXL live microphones, visit [www.mxlmicrophones.com/microphones/live/](http://www.mxlmicrophones.com/microphones/live/).

Where Great Recordings Begin
