MXL's New Drum Ensemble Kit Packs a Kick

Pack includes two Tom mics complimented by a Kick drum mic for a great starter set-up.

LOS ANGELES, CA – Continuing to make their way onto the stage, MXL announces its new MXL DRUM PA-5K dynamic drum kit. The three-piece kit includes MXL's brand new A-5t Tom Mics and a longtime favorite of drummers, the A-55 Kicker.

"MXL users have been asking for live drum mics," says MXL Global Sales Manager Scott Krueckeberg. "MXL has always made excellent instrument microphones, but the new A-5t dynamic tom mics are designed specifically for toms and percussion down to the mounting clips. The DRUM PA-5K is a great dynamic kit for any recording or performing drummer."

The A-5t is a high SPL cardioid mic with excellent ambient rejection and has a warmth and signature punch that complements toms and captures distinct notes for a clear, articulated sound. The A-55 Kicker dependably delivers the deep, low-end punch of kick drums, and a clean pickup for fast attacks. The A-55 Kicker also functions well for micing bass cabinets, congas and all other low frequency instruments.

The PA-5K set includes mounting clips and rimstands for instant set-up right out of the box. Both the A-55 and A-5t are designed with all-metal bodies to withstand repeated, demanding use during touring.

The DRUM PA-5K Drum Ensemble Set will be displayed at NAMM HALL A, Booth #6820. For more information about MXL Microphones, visit www.mxlmics.com.
