

AC-44 Tap User Guide

Miniature USB Microphone With Mute Button

Thank you for purchasing the MXL® AC-44 Tap Miniature USB Microphone. MXL Unified Communication Microphones are the result of world-class engineering and manufacturing. They are designed to provide you with outstanding performance and exceptional value. For best results, please take a few moments to review this literature.

GENERAL CHARACTERISTICS

With a compact footprint, the MXL AC-44 is an ideal solution for any application that requires high-quality sound capture, including web conferencing, telemedicine, huddle spaces, classrooms and more.

Offering crystal clear speech intelligibility, the AC-44 removes the barriers that unclear audio creates.

PLUG AND PLAY

The AC-44 Tap features an LED indicator that illuminates **blue** for active or **red** when muted, making microphone control a clear and transparent process for all.

Powered by a simple USB-C connection, the AC-44 Tap offers plug and play functionality - no drivers or installers are needed. Connect the mic and set it as your audio input device.

FEATURES

- Compact Design
- Easily integrates into Telemedicine and OEM applications or industrial workstations that require clear audio communication.
- USB-C connection with analog 3.5mm auxiliary output
- Wide sound coverage (180° pick up pattern | 25FT / 7.62M Range)

WARRANTY

MXL microphones are guaranteed against defects in material and quality for one year from date of purchase. Should you encounter any issues with this unit, please promptly contact the company you purchased it from for assistance. The original dated sales receipt will be necessary for any warranty claim. Do not send any unit directly to us without prior authorization from our service department. Warranty coverage is limited to repair or replacement (at our option) of the microphone, and does not cover incidental damages due to use, nor damage caused by accidental misuse of this product.
