MODERN TAKE OF A VINTAGE CLASSIC

Revelation Mini Fet MODERN TAKE OF A VINTAGE CLASSIC

Thank you for purchasing the MXL® REVELATION MINI FET. MXL microphones are the result of world-class engineering and manufacturing. They are designed to provide you with outstanding performance and exceptional value. For best results, please take a few moments to review this literature.

- FET based design providing classic tube warmth
- Three stage pad perfect for managing loud sources
- All around flexibility

GENERAL CHARACTERISTICS

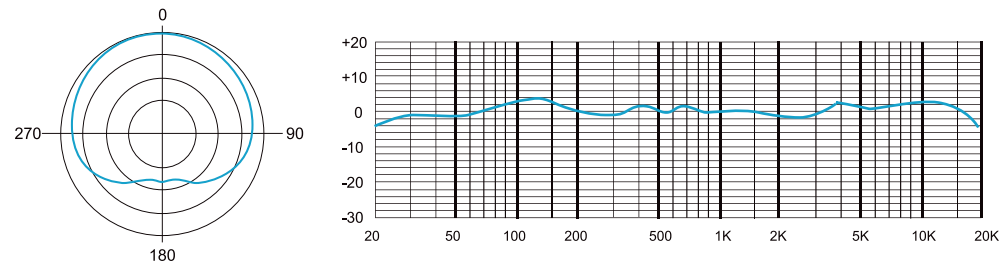

Designed with the modern creator in mind. Hand-selected components were vital in ensuring the Mini FET would not be another “generic” condenser. Its tight low-end and rich mid-range make this microphone a perfect solution for keeping the character and natural feel of a source. This mic is certain to deliver whether used on drums, guitar, or vocals.

MICROPHONE CABLES

Your microphone cable can have a profound effect on the sound of any microphone. Even the finest microphones will sound poor if the interconnect cable allows noise to enter, which can cause distortion and loss of information. We recommend Mogami® Gold Studio Microphone Cables.

WARRANTY

MXL microphones are guaranteed against defects in material and quality for one year from date of purchase. Should you encounter any issues with this unit, please promptly contact the company you purchased it from for assistance. The original dated sales receipt will be necessary for any warranty claim. Do not send any unit directly to us without prior authorization from our service department. Warranty coverage is limited to repair or replacement (at our option) of the microphone, and does not cover incidental damages due to use of this unit, nor damage caused by accidental misuse of this product.

TECHNICAL SPECIFICATIONS

Type:	Condenser
Capsule:	32mm capsule with gold-sputtered, 6 micron diaphragm
